GROUP

MODULAR LEARNING SPACES

**CODE COMPLIANT
MODULAR CLASSROOMS
& SCHOOL FACILITIES**

At Black Diamond Group, we believe in delivering convenience without compromise. Our modular learning spaces are designed to meet the evolving needs of schools with minimal disruption and maximum efficiency. From hire and installation to relocation and renovation, we provide a full turnkey solution managing everything from design approval through to delivery and handover. With cost-effective fixed pricing, flexible installation schedules (including during school holidays), and the safety benefits of off-site construction, we make it easy to create inspiring, functional learning environments when and where you need them.

RIGHT: Wisdom College

◆ OUR RANGE

We offer a comprehensive range of modular education facilities tailored to suit the unique needs of each school. Our solutions include modular classrooms and learning centres, along with specialised spaces such as art rooms, science laboratories, woodworking and metalworking rooms, and computer labs. We also provide essential support facilities including administration offices, first aid centres, lunchrooms, kitchens, tuck shops, amenities and toilets.

For broader school community needs, we deliver libraries, outside school care spaces, and early childhood facilities such as daycare, kindergartens, and early learning centres each designed with quality, functionality, and flexibility in mind.

External view with access ramps.

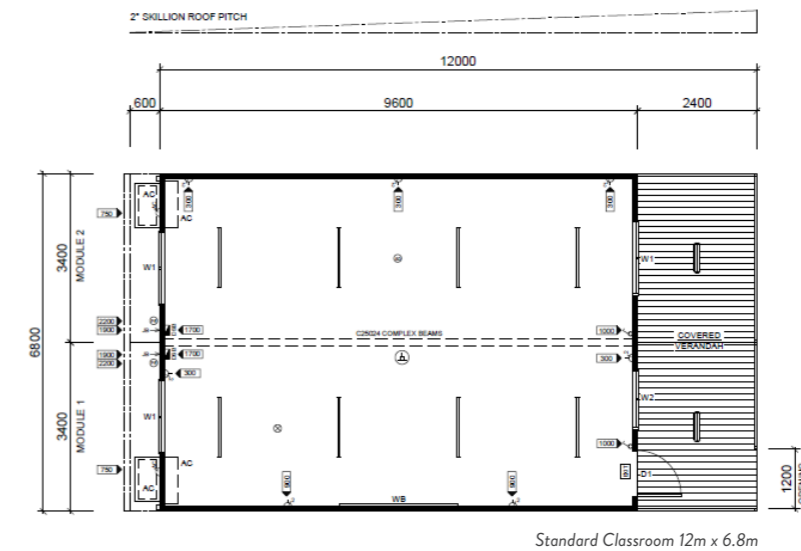

Reverse Cycle air conditioning.

Doors fitted with viewing panel.

Internal view of classroom with carpet and acoustic ceilings.

Standard Classroom 12m x 6.8m

◆ KEY FEATURES

Our learning spaces are built to the highest standards, combining comfort, safety, and efficiency with compliance and versatility:

- Split system reverse cycle air conditioning for consistent, energy-efficient temperature control year-round.
- A range of flooring options including carpet, carpet tiles, or commercial vinyl, tailored to suit educational needs.
- Integrated pinboards and whiteboards to enhance interactive teaching and learning experiences.
- Safety glass for added protection and durability in high-traffic environments.
- Fire extinguishers and smoke detectors installed to ensure full safety compliance.
- Energy-efficient design to help reduce operational costs and environmental impact.
- Balustrading for safe access to elevated areas and entryways.
- Fully compliant with the Building Code of Australia (BCA), ensuring every modular unit meets national construction and safety standards.
